

Rules of the 3 Phases

PHASE 1 [duration : 4 min]

Screen 1 :

- plays all clips with a duration of 3 seconds (in random order)
- when it finishes playing each clip once, it will create a new random order and play again

Screen 2 :

- plays all clips with a duration of 5 seconds (in random order)
- when it finishes playing each clip once, it will create a new random order and play again

Screen 3 :

- plays all clips with a duration of 2 seconds (in random order)
- when it finishes playing each clip once, it will create a new random order and play again

PHASE 2 [duration : 4 min]

Screen 1 :

- play 45 seconds random choices out of Clips with punctuation = "Door" & shotsize = 0 ("MS"), then play clip nr. 10 (only clip tagged "CloseUp"), repeat with new random choice

Screen 2 :

- play 46 seconds random choices out of Clips with punctuation = "Window" , then play clip nr. 10 (only clip tagged "CloseUp") – repeat with new random choice

Screen 3 :

- play 47 seconds random choices out of Clips with punctuation = "Door" & shotsize = 1 OR 2 ("MCU" or "FS"), then play clip nr. 10 (only clip tagged "CloseUp") - repeat with new random choice

PHASE 3 [duration : 16 min]

Phase 3 has 3 time slots of playing independently random clips on each screen and then. The 3 slots are separated by each time one clip chosen from a certain clip pool, which is played simultaneously on all 3 screens.

The duration of the random clip slots is (20 sec, 10 sec, 15 sec). The synchronized clips in between are chosen from:

1. nr.10 (only close up) OR shot of hand reaching out for door (Clip will be cut down to 2 seconds)
2. choose a Medium close up with male actor {clip: 317, 69, 96, 101, 431, 460}, cut down to 4 second duration or less, if clip is shorter.
3. Choose medium close up with female actress {clip: 108, 288, 435, 502, 517, 524, 511 } cut down to 2 seconds, or less, if clip is shorter
